

# FATHER OF GOLD MOUNTAIN DISTRICT RETURNS TO TONOPAH

Tom Coleman, father of the Gold Mountain district, is back in Tonopah after an absence of eleven years most of which time he spent in Alaska engaged in copper promotions which called for the investment of millions in development at La Touche Island, where the Guggenheims own one-half the island. But that's another story. Tom is known

# ONE YEAR IN PRISON FOR USING TERM HUN

(By Associated Press.) LONDON, Feb. 10.—Because he referred to the Germans as "Huns," Sergeant E. A. Boyd, a British aviator, who was captured was sentenced by a court to a year's imprisonment. He has now returned to England.

With a lieutenant, Boyd was traveling off the Belgian coast in a seaplane. They were shot down by enemy destroyers and while Boyd was in the water he wrote this message: "Shot down at 12:12 p.m. in the sea. I am still alive. The seaplane is on fire." The message was picked up by a German ship.

## STORM GENERAL ON THE PACIFIC COAST

All wires west of Reno are down, the Sierras are covered three feet deep with a fresh deposit of snow and travel is seriously interrupted by a cloudburst in California. This is a statement issued by the Western Union this morning to account for delay in delivery of the Associated press service as all messages from the Pacific coast had to be routed by way of Chicago around the southern and northern routes and then sent back almost to the point of origin.

The storm appeared general along the Pacific coast, beginning in the Siskiyou on the California-Oregon line and extending down into Arizona and New Mexico. This morning Tonopah was treated to a splendid exhibition of Paganini weather, according to the Indians, but which the average white person thought was a 100 per cent imitation of San Francisco in the good old summer time.

As one result of the storm no quotations from New York were received this morning and the first quotations from the coast were not blackboarded until 11:55 instead of 10 o'clock.

THE WOMAN'S RELIEF CORPS We are giving an entertainment for the boys that are coming home from camp and from over the foam. The more we have in uniform the better pleased we will be, for this is for the soldier and sailor boys, and for them everything is free. The dancing will be jittery style; the refreshments, canteen. But remember, boys, it is free to you. Come and we'll make you merry. There are soldier boys in Manhattan, in Goldfield and Round Mountain, too. But remember, you are all invited. Come and we'll extend a welcome to you.

MRS. J. B. CHAMPLIN, Senior Vice-President W. R. C.

## AMUSEMENTS

### COUNTRY GIRL CLIPS VULTURE'S WINGS

Mrs. Kells, society matron and mother of Moncure Kells, the young clubman, was astounded to find her self embraced and showered with kisses by Minnie Willis, a young country girl, at Madame Vette's modiste shop early this morning. The cause of the sudden display of affection was quickly explained by the young lady. She announced to Mrs. Kells that she had become engaged to Moncure, her son. Mrs. Kells was most agreeably surprised. But Moncure wasn't. The engagement with him was merely a trick to land an unsuspecting country girl in his net. Minnie was a very slippery little article, however, and she passed through the meshes very cleverly, taking a very considerable amount of Moncure's money in her merry manipulations. That is the basis of Triangles Red Book story by Ida M. Evans, "Limousine Life," which will be shown at the Hotel tonight, with the Broadway beauty, Olive Thomas in the leading role, playing the part of Minnie the country girl.

Added to the program—the latest Pathé News—no "for adults only," neither is it just for the youth of the nation. It interests each person in every audience, young or old. Tomorrow, Gladys Brockwell, in "The Lord of Prey," Wednesday "The Romance of the Apes." This is the last one.

### FRENCH VAVRIN RETURNS FROM PLEASURE TOUR

"French" Vavrin arrived home during the week from Arizona and California, where he spent a couple of months pleasuring, says the Ely Record. He states that Arizona, especially in the mining sections, has been his pretty hard by the general outburst of copper production, but that aside from the copper mines, conditions generally are very good there. Arizona produces more copper than any other state in the union, hence the mining companies have been compelled to lay off thousands of men, and the probabilities are that the production will be still further reduced in the near future. California, he says, "looks good," but as a matter of fact the country is full of men seeking employment. As a whole, he is of the opinion that little old Ely, notwithstanding its slump, is still the best camp on the map.
